- This product contains small items that could be a choking hazard if swallowed. Keep these items away from children.
- This product is intended for indoor use only. Using this product outdoors could lead to product failure and personal injury.

Requirement for Installation

Component Checklist

IMPORTANT: Ensure that you have received all parts according to the component checklist prior to installation. If any parts are missing or faulty, contact your place of purchase for a replacement.

Package M

1. Installing the Wheel Caster

Note: Each caster can be adjusted independently for fine tuning. Slightly turn the nut to lower or raise the base.

2. Attaching the Columns to the Base

Pull the pin outwards and pull the inner column upwards at the same time, until the inner column is pulled to the desired height then release the pin to secure.

3. Installing the Cross Bar

Attach the cross bar to the columns with the appropriate screws. Tighten all screws using a proper Phillips screwdriver.

Attach the columns to the base using the screws.

When the cross bar installation is completed, tighten the bottom screws using an Allen key.

Press the metal tab to lock the caster.

4. Installing the Cable Covers

5. Installing the Universal Plate

Attach the universal plate to the columns with the appropriate screws, washers and butterfly nuts. Tighten all screws and butterfly nuts.

6. Installing the Adapter Brackets

6a For Flat Back Screens

		1:1	
M-A			
M-F			

6b. For Screens with Irregular Back

Note: Choose the appropriate screws, washers and spacers (if necessary) according to the type of screen.
 • Position the adapter brackets as close as possible to the center of the display.
 • Screw the adapter brackets onto the display.

⚠ Tighten all screws but do not over tighten.

7. Hooking the Display onto the Universal Plate

• Hook the display onto the universal plate.
 • Tighten the bottom screws to secure them.
IMPORTANT: Make sure the display is mounted correctly and the screws are tightened safely before releasing the display.

8. Installing the Camera Shelf

9. Installing the DVD Shelf

Install the support bar to the columns at the desired position and secure using the appropriate screws.

Attach the DVD shelf to the support bar with the appropriate screws and butterfly nuts. Tighten all screws and butterfly nuts to secure.

10. Cable Management

Route the cables through the cable covers.
